JSBB Project

In Lumine Media recently obtained rights to translate, publish, and distribute 3,000 copies of The Jesus Storybook Bible in the Russian Language. We have begun translating and plan to publish the book in spring of 2011.

The Need

One of the biggest requests for our publishing ministry has been a children's Bible. There are very few quality Bibles available in Russian, and of those available, none are as Christ-centered as JSBB communicating the gospel clearly in every Old Testament and New Testament story.

With such a high demand we plan on distributing all 3,000 Bibles within a year of printing.

Distribution

In Lumine Media currently sells books in Ukraine, Russia, Belarus, Central Asia, and the USA. Our distribution network consists of brick and mortar retailers in Russia and Ukraine, other publishers, Russian language online retailers, book fairs, conferences, and our website.

Cost

The cost to print 3,000 copies is \$16,500. In Lumine Media is covering the costs to translate, edit, design, correct, and ship the books. Help with initial print cost is currently needed.

Revenue

All revenue generated from sales will be directed towards publishing new books, underwriting the cost of sermon translations, and translating children's ministry materials.
